Autumn	Plants		Animals including Humans Staying Healthy		Retrieve and Reflect	Animals including Humans Staying Healthy			Materials				Retrieve and reflect
	Bulbs	Bulbs	Setting Up Tests – How clean are my hands?	Why is exercise important?		What is a healthy diet?	How quickly can germs spread?	* Why is soap important? Reporting results	What are materials and how are they used around school?	How can materials change shape?	How suitable is a material?	The Three Little Pigs house	
Spring	Materials		Animals Including Humans Needs for Survival	Retrieve and Reflect	Animals Including Humans Needs for survival			Careers Week	BSW		Retrieve and Reflect		
	Why recycle?	John McAdam	What do humans need to survive?		What are offspring?	How do animals change as they grow?	* Do we all grow the same?	Naturalists	How much time do animals have?	Life-cycles			
Summer	Plants		Living Things and Their Habitats		Retrieve and Reflect	Plants	Living Things and Their Habitats			Plants	Consolidate		

Science in Year 2

	Setting up tests – Can I grow a plant anywhere?	What is the life cycle of a plant?	Is it living, dead or never been alive?	What is a micro-habitat?	How have animals adapted to their habitats?		* Can I grow new plants from seeds?	What is in my local habitat?	What is a food chain?	Key scientist – Steve Backshall	What do plants need to stay healthy?
